Xoro Tragbarer DVD-Player mit DVB-T & Media Player (HSD 7799)

Der neue Xoro HSD 7799 vereinigt TV und DVD-Player in einem tragbaren Gerät. Mit dem DVB-T Empfangsteil kann überall dort ferngesehen werden, wo der Fernsehstandard DVB-T unterstützt wird.Über den USB Anschluss bzw. Kartenleser können Videos, Bilder oder Musik von einem Speichergerät wiedergegeben werden. Darüber hinaus ist der HSD 7799 auch noch ein tragbarer DVD-Player.
Durch sein frisches, zweifarbiges Design setzt sich der Xoro von der großen Masse an schwarzen Geräten ab. Seine Oberfläche ist weniger empfindlich gegenüber Kratzern und Fingerabdrücken. Zugeklappt ist das Display des HSD 7799 gut geschützt – aufgeklappt kann es um 180° gedreht werden. So verwandelt sich das Gerät zum schlanken Video-Tablet.
Im Vergleich zu vielen anderen Geräten in seiner Klasse wurde beim HSD 7799 nicht am Display gespart. Mit seinen 800×480 Pixeln liefert der 22,8cm Bildschirm farbenfrohe und scharfe Bilder.

Easypix Easypad Junior - 7" Touchscreen/WLAN/Android 2.3

Smart technology for clever kids
Easypad Junior, the first pad, which has been adapted to meet the needs of children and teens. Nowadays it is extremely important to learn early on how to use a computer. The Easypad Junior, which is equipped with Google's Android 2.3, can bring your kids into the digital world, with consummate ease.
From the very beginning, kids learn playfully how to research on the Internet, send e-mails, and organize the daily routine.
The clever helper for everyday
The Easypad Junior is perfect for keeping track of school life which is sometimes so stressful. With the digital homework book and the curriculum organizer, important things in their lives will no longer get forgotten. The inbuilt scheduler will make note of all appointments and the digital clock will keep punctuality.
Thanks to Google Maps it will always find the right way and virtual tours to anywhere in the world are also possible.
The Grade Improver
As the school curriculum gets more demanding, it is good that the Easypad Junior keeps in step. The vocabulary trainer makes language learning fun and easy and the next round of homework will be that much easier to tackle.
Thanks to Wikipedia for information, lectures and group work become so easy to do. These are just a few of the many ways in which the Easypad Junior can support your child in school. Many more interesting and free apps are just a click away under the MONSTER Button on the pad, leading to Easypix´s Junior Web Corner carefully researched and constantly being updated for safe child usage.
The Entertainer
Naturally, children not only want to learn with their pad but want to have fun with it as well. On a brilliant 7-inch display, they can watch videos and slideshows.
There is plenty of space for music and of course a built-in camera.
The e-book reading app is really cool, no matter whether on the bus, train or at home. With a whole

Easypix DVX 5233 Optimus Full HD

DVX5233 "Optimus"Films in HD quality simply look better. When do you shoot your first HD film? The DVX5233 "Optimus" is the right camcorder to do so, because it shoots videos in a resolution of 1920 x 1080 pixels, which is full HD quality.
To guarantee an optimal quality "Optimus" is equipped with a 5 MP sensor and offers 23x optical and 120x digital zoom.
Totally new possibilities open up by the slow motion and 24-hour time lapse modes. These modes are able to shoot things which are too fast or too slow to be recorded in the normal frequency. Leave your creativity free run during filming. A good handling was also very important to us so we invented an electronic stabilization technique which puts an end to blur videos.
Did you become curious? Then don't miss out this highlight.

Easypix DVX 1035 Premium Full HD

DVX1035 "Premium"High demands to quality and design combined with the best technology is the concept of the DVX1035 full HD "Premium".
Easypix's new top-of-the-line model has everything what professionals expect from a camcorder. Thanks to the resolution of 1920 x 1080 pixels the videos are clear, sharp and full of details. The 10 MP CMOS sensor and 10x optical and 100x digital zoom guarantee an optimal image quality.
The Slow Motion filming mode with 240fps enables you to shoot movementswhich are too fast for the human eye. The other way around is possible because of the time lapse function. In this mode the camcorder records slow events like a sunset. These technologies bring your films as close to Hollywood as never before.
Of course "Premium" offers more than only good inner values.
The design is sporty, chic and always cut a fine figure. The camcorder fits perfectly into the hand and the large-scale, unique 3,5" display makes the operation especially comfortable. This is how a camcorder should be.

Easypix V527 Diamond

More than just a camera, "Diamond" is a successful symbiosis of jewelry and gadget.
This accessory will make you shine on every occasion, thanks to the ca. 400 rhinestones, which are attached manually and create the camera's unique design.
Diamonds shouldn't be hidden in a bag and therefore our camera is worn directly around the neck, by using the elegant neck strap. Wearing this camera will give your outfit that certain something.
Who shines so brightly needs an adequate packaging, thus we lay down this camera in a luxurious casket, on a bad made of black velvet. The camera is cloaked by a small velvet bag with a sparkling pendant. Make yourself a present, or present someone really special.
The "Diamond" makes of course also great pictures. This becomes obvious by having a look on to the technical details:

Computer & Electronic / HDMI Cable

Item No.:4096

HDMI High Speed cable with a 180 ° movable twist (2,0 Meter)

The HDMI cable with the 180 ° movable, flexible connectors are ideal for flat screen installations to or inaccessible environments. As LCD and plasma screens are thinner and lighter, the trend is to trigger it to mount on the wall. But most HDMI cables are very stiff and require additional space between wall and screen. Ideal for TVs, flat panel displays, projectors, DVD and Blu-ray player without HDMI connections at the bottom allow the distance between wall and screen to reduce to 3 cm.

Happy Cow RC Helicopter i-helicopter for iPhone, iPad, Ipod

Certainly one of the best and cheapest mini helicopter for beginners to familiarize with the RC flying.
The helicopter flies very stable, can be easily controlled and landed at any place. The helicopter is controlled with three rotors (2 main rotors and a tail rotor).
You can control the helicopter in many directions. Turn up and down, forward and back as well as clockwise and counterclockwise.
The i-helicopter is equipped with a sturdy, high-quality aluminum frame and an LED light system. Control is connected via the supplied IR transmitter to the audio output of the iPhone or iPod Touch
The free app can easily be download in the AppStore . Your iPhone, iPod Touch or iPad becomes the remote control. You have the choice to control ir with the motion sensors on your iPhone, iPod or iPod Touch or via the display controller. By selecting three frequency channels, 3 pilots can fly three helicopters at the same time.
The batteries of the i-Helicopters and Infrared transmitters are easily recharged using the included USB cable. Due to the extremely smooth ride, easy to use and very robust and virtually indestructible aluminum frame, your desk is the new helipad. Only a short adjustment period is sufficient and you will maneuver it perfectly .

CF 8GB SanDisk Extreme 60 MB/s 400x Blister

Get exactly the shots you want with professional-grade SanDisk Extreme® CompactFlash® cards. With up to 60 MB/s* read/write speeds, you'll see it takes more than a great digital SLR camera to bring your ideas to life. And with up to 32GB** of space, you'll have room to capture it all in RAW+JPEG, and save the editing for later.
SanDisk engineered its Power CoreTM Controller to take whatever your camera's buffer can dish out. By distributing image data across the card more rapidly and efficiently, this card delivers professional performance.

Specifications:
WRITE PERFORMANCE: Up to 60MB/s (400x)*
READ PERFORMANCE: Up to 60MB/s*
CAPACATITY : 8 GB
UDMA: UDMA 5 enabled (works in all UDMA modes)

SDHC 8GB Verbatim Blister (Class 10) (43961)

Verbatim SDHC (Secure Digital High Capacity, SD 2.0) Cards are designed to be used in compatible digital cameras, portable music players, camcorders, smart phones, PC's or other consumer applications. SDHC Cards use a FAT32file system, a specification that was established for applications with higher capacity needs and are especially suitable for high-quality video.

The increasing use of high-definition video, high-resolution digital photography and mobile applications demands higher storage capacity and more demanding data transfer rates. Because of this, SDHC cards guarantee a minimum sustained data transfer speed, not a maximum speed.
Verbatim SDHC Cards are fully compliant with all applicable SD standards. They also contain a write protect feature to prevent accidental erasure. SDHC cards use the same physical format as SD cards but cannot be used with SD host devices that do not comply with SDA Specifications Version 2.0.
Class 10: Guaranteed minimum data transfer rate of 80 Mbit/s (10 MByte/s).
More Green, Less Plastic.
This package contains on average 90% less plastic than previous packaging.

Verbatim HDD extern 2,5 incl 1TB (53016)

The Verbatim USB 2.0 portable hard drive is the ideal storage solution for people on the move. Combining the large capacity in a light weight drive makes it perfect to carry with you.
Store and carry your digital and day to day working files on this truly mobile drive. Its stylish smooth design sits neatly on the modern desk top as the perfect accompaniment to your laptop.
The Verbatim portable hard drive is USB 2.0 bus powered (1 x USB 2.0 interface) and requires no external power for operation; simply plug 'n' play.
Store 'n' Go Portable Hard Drives are formatted in FAT32 enabling you to use them on Windows OS and Mac OS systems.
For added security Nero BackItUp and Burn Essentials software is provided to help back up your laptop or PC's hard drive. BackItUp and Burn Essentials provides 3 applications in 1. Back up all your files, folders, and drives whenever you want, or schedule the auto back up to a set time for added security. Nero Express gives you the option to burn your files to CD or DVD, and with Nero RescueAgent you have an option to recover files should they become damaged.
Nero BackItUp and Burn Essentials Software is compatible with Windows XP, Vista, and Windows 7 (not compatible with Mac OS).
Verbatim Store 'n' Go Portable Hard Drives also comes with Green Button energy saving software. Green Button software suspends the hard drive from spinning while not in use increasing efficiency and saving energy.
There are 3 'Sleep Setting' options. Set the suspend mode to come in after 10 minutes of use, or by increments of 10 minutes up to 120 minutes. Set the drive to suspend immediately by double clicking the Green Button icon on the desktop, alternatively you can set the drive to 'Never Suspend the disk'

Verbatim HDD extern 3,5 incl. 2000GB Raid USB (47528)

2-Disk RAID External Hard Drive 2TB
Verbatim's 2-Disk RAID External Hard Drive has user selectable RAID options: BIG / RAID 0 or RAID 1.
In RAID BIG mode, the full capacity is seen as 1 BIG Drive with 1 drive letter assigned to it. It fill up one of the Hard Disk's before starting on the other one.
RAID 0 - Striping, offers improved Read/Write times. The full capacity is still seen as 1 drive letter, but the data is split equally across both of the drives.
RAID 1 - Mirroring, is great for data security. Each drive's content is duplicated, so there are two copies of the same data. The maximum capacity is that of one of the Hard Disks within the RAID drive. 1 drive letter is assigned to the drive.
Verbatim's eSATA / USB 2.0 Combo External Hard Drive provides high capacity storage back up for all file types offering high performance and reliability to both the professional and home user.
Stores thousands of digital photos, videos, and other electronic files. Powered by a SATA high speed hard drive, the Verbatim eSATA 3Gbits / USB 2.0 Combo Drive provides ultra fast transfer speeds for the professional user. Up to 6 times faster than USB 2.0, eSATA 3Gbits saves you time and is ideal for high definition video, and audio applications.
Its stylish 'black steel' space saving design sits neatly on the modern desk top.
The drive comes with Nero BackItUp 4 Essentials software providing full back up management for your PC/laptop* hard drive.

* Unfortunately Nero BackItUp 4 Essentials software is not compatible with Mac operating systems.
Compatible with Windows 7
Verbatim 2 Year Warranty.

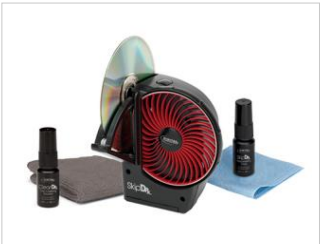
SkipDR Disc Repair & Cleaning System for Playstation 3



SkipDR is widely acclaimed to be smartest solution to repairing scratched discs. The Flexi-wheel with its unique micro-friction surface scrapes from a uniform, microscopically thin layer of the disc, without violating the protective layer. These scratches are smoothed, and regenerate the protective layer of the disc, while music, DVD movies, games or data remain intact. SkipDR works so precisely, the discs can be repaired if necessary several times.

Specifications:
Disc repair device with flexible wheel
- regeneration liquid
- drying cloth
- cleaning solution
- microfiber cloth
- 6 AA batteries
- Manual DE, EN, FR, IT, ES, NL

SkipDR Disc Repair & Cleaning System for Blu-Ray

SkipDR gilt branchenweit als pfiffigste Lösung zum Reparieren zerkratzter Disks. Das FlexiWheel mit seiner einzigartigen Mikroreibungsfläche schabt eine gleichmäßige, mikroskopisch dünne Schicht von der Disk ab, ohne die Schutzschicht zu verletzen. Hierbei werden Kratzer geglättet, und die Schutzschicht der Disk regeneriert, während Musikstücke, DVD-Filme, Daten oder Spiele intakt bleiben. SkipDR arbeitet so präzise, das Disks bei Bedarf auch mehrfach repariert werden können.

USB LED Light for Notebook und PC

The USB light is an ideal completion of your PC or notebook to work efficiently also in case of bad lighting conditions. No more key searching in the darkness or deciphering of notes. Easy handling turns the USB light into an assistant, which you will never want to miss again. Just put the USB light to a free USB port. Ready! Thanks to the flexible goose neck every place can be illuminated if necessary. By the use of a LED, the power consumption is minimal and does not impact the runtime of your notebook noticeably. No batteries, power supplies or cables necessary.

Easypix CyberScanner Vision COMPACT

The best memories we have, unfortunately are not always digital – many are stored on slides or negatives. Pictures of our youth, old family photos, or the first snapshots of the children. These treasures of the past are much too good to let them gather dust in a box in the closet.
The CyberScanner Vision Compact is the solution for this problem! It is a complete 'stand alone' item and at about 400g, is so light that you can transport it easily from one place to another. The CyberScanner Vision Compact is fast, easy to use and with its 5 megapixel resolution (1800 dpi), it gives your pictures and negatives a new fresh luster.
The data are stored on an SD or SDHC card – so you can conveniently add to your digital photo album with the old slides.
